# FRANC POUR CENT

- Château de La Grenière

LUSSAC SAINT EMILION

The year 2021 marked a return to the Audren estate. Driven by a desire to explore the concept of single-vineyard wines in greater depth, he created a cuvée from a unique site: “Les Grandes Vignes.”

This plot, rooted in dense clay soil, is planted with old Cabernet Franc vines dating back to the 1960s. It reveals rare genetic characteristics and offers a unique expression of this grape variety in the Bordeaux region.

The grapes are harvested by hand following inter- and intra-plot selection.
The grapes are then vinified in 500-liter barrels, after which the wine is aged in second-use barrels and in an ovoid tank to preserve the fruit’s full purity and complexity.

This wine fully embodies the identity of the terroir, bridging tradition and modernity.
It invites reflection on the diversity of flavors and expressions within a single region.

Through its label, we sought to immerse the taster in our artistic universe, where the colors and movements of the racking process come to life and reveal the wine’s full poetic essence.

Production: 558–932 bottles.
