CHÂTEAU HAUT LA GRENIÈRE - LUSSAC SAINT EMILION

The vineyards of Château Haut La Grenière overlook the "Champs de Verdus" plateau, the highest point in the locality known as La Grenière.

Merlot, Cabernet Franc, and Cabernet Sauvignon take root in sandy-clay soil and benefit from a warm, windy climate in the summer.

The Haut La Grenière terroir helps produce grapes with intense fruit flavors and relatively supple tannins.

Aging in concrete tanks brings out the purity of the fruit and the wine's generous character.

16,000 bottles produced

« Inviting notes of blackcurrant, licorice, and cocoa. The wine stands out for its freshness and balance. It's clear that the winemakers chose to let the terroir speak for itself. »

Yves Beck
