

PARENTHÈSE DE LA GRENIÈRE

- Blanc de Noirs

IGP ATLANTIQUE

Innovation disrupts traditions with the arrival of Parenthèse Blanc de Noirs.

As its name suggests, this white wine is made from black grapes, specifically Cabernet Sauvignon.

Freshness and minerality remain, thanks to the vine's rooting in clay-limestone soil. Only the first pressed juices are kept to achieve an atypical aroma and a color of great purity.

To perfect its balance, this white is vinified and aged in wood, with part of the malolactic fermentation carried out, bringing complexity and creaminess.

3,500 bottles produced.

« On the nose, we find notes of yellow and white fruits, acacia flowers, flintstone, as well as toasted notes. Between tension and roundness, the palate is refreshing and beautifully dense »

Audren Dubreuil
Words of the Winemaker
